ABSTRACT

This 1991 report from the Alabama Public Library Service includes directories of public libraries, single-county public library systems, multi-county public library systems, and multitype library systems in the state, as well as cross-references providing access by library name and librarian. Individual library statistics present data for fiscal year 1991 on print resources, non-print resources, income, salaries and materials, other expenditures, circulation, and reference and programs. Library rankings by size of staff, total volumes, circulation, total income, and expenditures (total, local per capita, and total per capita) are presented. (MES)
